

PRODUCT DATA

V-4012

ADHESIVES CORPORATION

V-4012 is a high quality fast drying, quick setting, brushable, neoprene contact adhesive that has been designed to produce a strong permanent bond when used with a variety of porous and nonporous substrates.

Typical Properties

Color:	Yellow/Brown
Base:	Neoprene Rubber
Solvent:	Aromatic/Ketone/aliphatic blend
Viscosity:	120cps +/- 50
Solids:	20% +/- 2%
Wt./gallon:	6.8
Pounds VOC	3.52/Gallon
Pounds HAP	3.52/Gallon

V-4012 gives excellent adhesion to rubber, foam, metal, wood, particle board, decorative laminates, and many other substrates. The product is used as a contact adhesive. After application to both substrates, the adhesive is dried until tacky to the touch but does not transfer to the finger. The substrates are then matched and sufficient pressure is applied to make a satisfactory bond.

For specific applications and additional information, please contact your Slocum Technical Representative.

V-4012 is flammable and as such bears a red caution label.
